Sri Sri Cancer Care

An Unique Holistic Approach To Cancer Care

SRI SRI COLLEGE
OF AYURVEDIC SCIENCE
& RESEARCH HOSPITAL

An ISO 9001-2008 certified hospital

ELEMENTS OF TREATMENT.

1. Ayurveda Medicines and Nadi Pariksha

2. Satvavan protocols of sadhana

3. Combination of Alternative Therapies

4. Ayurvedic Diet & Supplements

5. Life Style Interventions

WHO CAN BENEFIT

Preventive Care

- Who has History of cancer in family
- Who have benign tumor, cyst or polyp
- People who have quit smoking/ alcohol

Primary Ayurvedic Intervention in initial stage where no allopathic intervention is taken.

Patients with any stage of cancer under allopathic treatment.

Prevention of Relapse for Cancer Survivors.

Promoting wellness after or during chemotherapy/ radiation.

Ayurveda can help reverse the underlying cause of cancer and strengthens our immune system to fight the disease. It is also useful in combating the harmful side effects of conventional line of treatment.
